## Justification :

The health camps which were claimed are not the part of the regular curriculum and are solely extension activities only. As well as, Shri Ganganagar district in Rajasthan, a less developed area, faces limited awareness about critical health issues, drug abuse, and environmental concerns. As an educational institution, HEI has taken steps to raise awareness on these issues, including the dangers of drug use, child abuse, and diseases like dengue. These efforts have positively impacted the community by educating people on these pressing challenges. In light of the region's needs, HEI has organized these awareness programs and requests the DVV partner to consider them in the input data. HEI request the DVV partner to accept the change in input.

S. No.	DVV Clarification	HEI Response
1	HEI to note that only programs that benefit the community should be considered	HEI has considered only the programs that benefit the community.
2	HEI being a health university has included a lot of health camps organised in rural areas for the data , such camps being a part of curriculum cannot be considered.	The activities conducted by the HEI were entirely outreach programs which were not a part of curriculum, and all of them provided valuable benefits to the local community. DVV may kindly accept the HEI input.
3	HEI to also exclude awareness rallies by students as it is not directly beneficial to the community.	Shri Ganganagar district in Rajasthan is considered as one of the less developed areas, where awareness about critical health issues, the dangers of drug abuse, and various environmental concerns remains limited. As an educational institution in this region, HEI has taken proactive steps to raise awareness on key issues affecting the local community, including the harmful effects of drug usage, child abuse, and the threat of diseases like dengue. These initiatives have significantly improved the lives of the people by informing them about

S. No.	DVV Clarification	HEI Response
		these pressing challenges. In response to the specific needs of the region, HEI has organized these awareness programs and, therefore, requests the DVV partner to consider these awareness programs. HEI request the DVV partner to accept the change in input.
4	HEI to recheck the data for the input for the metric 3.6.1	As per the DVV partner suggestion HEI has rechecked the data for the metric 3.6.1
